1 The metaDESK: models and prototypes for tangible user interfaces
   Brygg Ullmer, Hiroshi Ishii
   October 1997 UIST '97: Proceedings of the 10th annual ACM symposium on
            User interface software and technology
   Publisher: ACM

   Full text available: 📄 pdf(1.51 MB) Additional Information: full citation, references, cited by,
                                                                      index terms

      Keywords: augmented reality, haptic input, input devices, tangible user
      interfaces, ubiquitous computing

2 Urp: a luminous-tangible workbench for urban planning and design
   John Underkoffler, Hiroshi Ishii
   May 1999 CHI '99: Proceedings of the SIGCHI conference on Human factors
            in computing systems: the CHI is the limit
   Publisher: ACM

   Full text available: 📄 pdf(1.34 MB) Additional Information: full citation, abstract, references,
                                                                      cited by, index terms

      We introduce a system for urban planning - called Urp - that integrates
      functions addressing a broad range of the fields concerns into a single,
      physically based workbench setting. The I/O Bulb infrastructure on which
      the application is based allows physical ...

3 mediaBlocks: physical containers, transports, and controls for online
   media
   Brygg Ullmer, Hiroshi Ishii, Dylan Glas
   July 1998 SIGGRAPH '98: Proceedings of the 25th annual conference on
            Computer graphics and interactive techniques
   Publisher: ACM

   Full text available: 📄 pdf(302.49 KB) Additional Information: full citation, references, cited
                                                                      by, index terms

Keywords: phicons, physical constraints, tangible bits, tangible user interface, ubiquitous computing
